Water Systems Council Publishes Three Spanish Information Sheets

Washington, DC (October 9, 2009) – Water Systems Council announces three of its **wellcare**® information sheets have been translated into Spanish. The translated sheets include “La Desinfección de su Pozo” (“Disinfecting Your Well”), “Bacterias y Las Aguas Subterráneas” (“Bacteria & Groundwater”), and “La Compra de una Casa con un Pozo” (“Buying a Home with a Well”).

wellcare® information sheets are intended to educate well owners, home buyers, realtors, mortgage companies and others on topics such as well maintenance, well water testing and treatment, water quality, well components and potential ground water contaminants. There are 80 information sheets currently available. They can be downloaded FREE from the WSC website at www.watersystemscouncil.org, or can be obtained through the **wellcare**® hotline at 888-395-1033.

WSC is a national nonprofit organization dedicated to promoting the wider use of wells as modern and affordable safe drinking water systems and to protecting ground water resources nationwide. It is the only national organization solely focused on individual water wells and other private well-based water systems.
