Now Available: Water Systems Council Informational Brochures for Real Estate Agents and Homebuyers

Washington, DC (November 1, 2007) – Two new informational brochures to advise real estate agents and homebuyers on buying or selling a home with a well are now available through Water Systems Council. The brochures are available through Water Systems Council's **wellcare®** hotline at **888-395-1033**.

"A Homeowner's Guide to Your Well" includes the questions a homebuyer should ask when buying a home with a private water well. It defines the ideal conditions for a well, and answers frequently asked questions about wells, including questions about water treatment systems and well maintenance. "A Real Estate Agent's Guide to Buying or Selling Homes with Wells" also provides information on mortgage lender requirements for homes with wells and well water testing.

WSC is a national nonprofit organization dedicated to promoting the wider use of wells as modern and affordable safe drinking water systems and to protecting ground water resources nationwide. It is the only national organization solely focused on individual water wells and other private well-based water systems.
