Water Systems Council Re-Releases Board Book to Educate Young Children on Water Wells

Washington, DC (September 6, 2007) – Water Systems Council (WSC) has published a board book, *The Big Rig*, to introduce young children to the water cycle and how water wells are drilled. First published in March 2006, the book includes facts about groundwater use, colorful photographs, and illustrations showing the water cycle and how a well provides water to a home.

"*The Big Rig* is a fun way to teach children about wells," says WSC Executive Director Kathleen Stanley. Shaped like a drill rig, *The Big Rig* also stands on six rolling wheels. Copies can be purchased for \$5.95 (\$4.46 for WSC members) through the **wellcare®** hotline at **888-395-1033**.

WSC is a national nonprofit organization dedicated to promoting the wider use of wells as modern and affordable safe drinking water systems and to protecting ground water resources nationwide. It is the only national organization solely focused on individual water wells and other private well-based water systems.
