

# Where does your water come from?

If you have a well, your water is nature's

best—ground water! Well water comes straight from

the source—safe, protected, natural reserves within the earth called

aquifers. Choose well—choose wells. For more information, contact

the wellcare® hotline at 1-888-395-1033 or [www.wellcarehotline.org](http://www.wellcarehotline.org)
