

wellcare[®] information for you about **A Shared Well Agreement**

When buying a property with a shared well, a legal agreement is essential, in order to protect your access to the water supply and to spell out the costs and responsibilities involved in maintaining the system. For more information on this topic, refer to the wellcare[®] information sheet, "Sharing a Well."

Below is a sample Shared Well Agreement, based on the U.S. Department of Housing and Urban Development (HUD) model, from the U.S. Department of Agriculture Rural Development website. All situations are different and individuals should seek independent legal advice before entering into a contract. This form is intended to be a starting point, and should be reviewed and modified by an attorney prior to being finalized. Each state has different legal rules that must be considered.
